

## PAVING CHARGE TO CAR LINE \$2,000

Street Car Company Pays Part  
of North Washington  
Street Job.

Figures issued Friday by City Manager Henry Traister show the Janesville Traction company to be indebted to the R. B. Birdsell & Sons company, Racine, in the sum of \$2,072.12 for paving on North Washington street. The figure represents the difference in the cost of paving between the street-car tracks and the cost in that zone if no tracks were on the street. The property owners are assessed the regular amount to the center of the street and the traction company the balance.

The bill against the traction company for the two blocks of concrete pavement on North Washington street, Mineral Point avenue to Highland avenue, is figured as follows: 111 cubic yards of concrete, at \$12.51, \$1,389.11; 302 cubic yards excavation, at \$1.51, \$456.02; 1,812 square yards of pavement, at 20 cents, \$362.40. Total, \$2,072.12.

The cost of track pavement is \$2.25 a yard and regular pavement, \$1.50, leaving a balance of 20 cents a yard payable by the street-car company. In excavation, the company's share is the difference between \$1 a cubic yard and 52 cents, or 48 cents.

### BROOKHART ATTACK ON DAWES IMPOTENT

(Continued from Page 1.)  
Follette wrote that letter to Brookhart to sign, said Mr. Britten, "I have watched the Wisconsin senator for many years and the document sounds just like him. Instead of calling on Dawes to get off the republican ticket, I would suggest that Brookhart get off the republican ticket, for he is no republican."

out in the open.  
The full effect of the Brookhart episode may not be at first apparent even in Iowa, but nationally it is the beginning of a break in the ranks of those insurgents who have been more or less neutral on the LaFollette issue. And find themselves tempted to come out in the open.

Senator Hiram Johnson of California is a case in point. He has been saying nothing since the Cleveland convention, and he hasn't opposed LaFollette any more than has Brookhart, but he is doing everything to encourage the opposition to Coolidge and the supporters of LaFollette. It is being done in a characteristic way. For example, Mr. Johnson has issued not one statement commenting on the refusal of the courts to permit the LaFollette electors to be placed in an independent column, but two. In the second he says everyone who really is at heart for LaFollette will hesitate to vote the socialist ticket. Nothing plainer could have come from Hiram Johnson if he had said "I am for LaFollette."

Opens War on Dawes.  
So with Brookhart. He knows the republicans will not discard Dawes on his say-so. As a result, the Iowa senator wages open warfare on the vice presidential ticket and says nothing about the presidency, and the effect produced in Iowa is the same as in California—the radicals line up for LaFollette.

In a close campaign the Brookhart letter might have been the heart of an interesting controversy in the west. As it is, Senator Wheeler of Montana has said, and is saying ever and over again every day, very much what Brookhart said. But the political soil is not receptive to this kind of attack. There is no uprising in the west because to most republicans, at any rate, Coolidge is the platform and the issue, and the vice presidency is not being debated to the extent that the opponents of him, Bush or the friends of Gov. Bryan and Senator Wheeler, for that matter, would like to have it.

President's Record Clean.  
As long as there are no further bank controversies or other skeletons in the closet to be dragged out against Coolidge, and nobody has ever thought there would be, for the record of the president is well known and has been examined with a microscope in his previous campaigns, there will be relatively no ill effects on this way from the attack on Dawes. In some states it probably will add a few votes to the LaFollette column, but the chances are they would have gone in that direction anyway.

Nevada, Idaho for Coolidge.  
The campaign in the mountain states is slowly getting under way but it has developed little excitement. Reports from Nevada and Idaho indicate that these states probably will be with President Coolidge on election day. There are no local issues which would give either state a complexion different from what one finds in the neighboring states of Washington, Montana, Oregon and California. The whole Pacific coast region gives the appearance of being solidly for the president.

What the situation to east of the Rockies remains to be determined, for as one turns toward Utah, Colorado, Nebraska, Iowa, Kansas, Oklahoma and Missouri, there are local influences which may swing the pendulum one way or another in respect of the drift of the whole region.

RALLY DAY SUNDAY.  
The Episcopal Grace Congregational church and Sunday school will observe rally day next Sunday, morning worship at 10:30, Sunday school at 11:15. Frank D. Jackson, pastor.

### GIRL, 11, CATCHES FOUR BURGLARS

Betty McCutcheon, 11, is in line to become Kansas City's Sherlock Holmes if she continues her detective career. Betty is given credit for the capture of four burglars who robbed a neighbor's house. She took the home number of these men and gave police description of the thieves.

### ROAD COMMISSION APPROVAL NEEDED

Madison — A guide board, erected at a road intersection and designating a different route to a city than that adopted as the state trunk highway, is illegal unless approved by the highway commission. Deputy Attorney General Erickson today advised H. R. Williams, dis-

trict attorney at Marshfield. The ruling related to the routing of a highway between Wisconsin Rapids and Marshfield, in the Vesper vicinity.

Must Register Under  
Wisconsin Statutes  
(BY ASSOCIATED PRESS)  
Madison — The Foreign car ex-

emption statute, exempting out of state cars from registration in Wisconsin, does not apply to motor vehicles owned and operated on the highways of this state, an opinion by Assistant Attorney General Bump today advised Secretary of State Fred R. Zimmerman. The opinion laid down the rule that a resident of Wisconsin who acquires a motor vehicle registered under

the laws of another state, must register the vehicle under Wisconsin laws before it can legally be operated on highways of this state.

Conservation Program  
Is Given Wide Support  
(BY ASSOCIATED PRESS)  
Madison — Almost universal support of the proposed amendment to the

state constitution which would permit additional funds for reforestation and conservation activities is being expressed over the state, according to C. L. Harrington, state superintendent of forests.

FARMER IS KILLED.  
(BY ASSOCIATED PRESS)  
Middleton, Wis. — Lester Schindler, a farmer living near here, was killed

Thursday when the team he was driving ran away, throwing him from the wagon. His skull was crushed.

CANAL ZONE CHIEF  
RESIGNS OFFICE  
Washington — Secretary Weeks has accepted the resignation of Col. Jay L. Morrow, retired, governor of the

Panama canal zone, effective Oct. 15. Col. Morrow will be succeeded by Col. Merleweher L. Walker, who for the last three years has been assistant to the canal zone governor and in charge of maintenance works there.

The 25,000 forest area in this county each year claim many lives and a damage of \$16,000,000.

## MANY PROMENADE ON FASHION ROW

Window Shoppers Find Gorgeous Displays to Attract Attention.

Hundreds joined the promenade on fashion row Thursday night when the Janesville merchants presented fall and winter modes in gorgeous window displays, the prelude to the opening Friday and Saturday. Colors, fabrics and trimmings allied in a season of unparalleled splendor in raiment for both men and women.

Since woman's dress is always paramount, the stores displaying feminine apparel were most popular with the window shoppers. Straight lined, belted frocks, the latest in silhouette, were shown in a variety of colors and materials. A dress of navy point with embellished with silver metallic braid, panning the front was one of the attractive models shown by J. M. Dostwick & Sons.

**Metallic Vogue Popular.**  
This is surely the season of metallic trimmings, gowns and accessories. The stores displaying feminine apparel were most popular with the window shoppers. Straight lined, belted frocks, the latest in silhouette, were shown in a variety of colors and materials. A dress of navy point with embellished with silver metallic braid, panning the front was one of the attractive models shown by J. M. Dostwick & Sons.

Black is ever chic and smartly designed gowns of black satin and tulle were added much to the display. Simpson's has a black gown heavily loaded with silver beads, the style of which is simple, yet strikingly attractive.

**Revel in Panels.**  
Designers have this year positively revelled in panels and tunics. With the clip of the scissors here and there, tricky effects have been produced in the overskirt. Insets of lace, fur and georgette enrich the satin afternoon gowns. J. C. Penney & Co., displayed a black satin belted gown, charmingly combined with insets of corn colored georgette. Levy's annex has an entire window of black and white dresses, some combined with blue and some with red georgette beaded overskirts and panels.

**Velvet Brocades and Printed Velvet.**  
Brocaded georgettes have continued to give a regal note to evening and function gowns. Dostwick's, the Golden Eagle, and Brock's, all display brocaded georgettes, with tunics adorned with fur. Brock's have a black and red gown which created much admiration Thursday night. It has a black georgette background with a rich shade of red brocaded velvet set off with black fur. For a daytime frock of practical mode, Klassen's offered a brown point tunic.

**Among the Furs.**  
Fur wraps and fur trimmed coats excel in luxuriance this season. Simpson's has a black and colored full length coat with brown fur collar, a model suitable for all ages and all occasions. Brock's and Dostwick's both enriched their windows with two beautiful models in gray squirrel. All coats are of straight lined modes with many fur collars graduating into a trim that runs down the entire front of the coat. Both T. P. Burns and Dostwick's showed kasha coats adorned with squirrel, a becoming shade of green at Burns' and a black and white at Dostwick's. The bishop's sleeve with insets of fur, or, if the coat is of fur, a cuff of a different pel, is a new wrinkle in the fur world. Brock's featured a brown coat with insets of mink extending from the sleeves to the shoulder, broadening out into a luxurious collar. A tempting creation of the bishop's sleeve innovation was exhibited by the Golden Eagle in a full length Hudson seal with full cuffs of kolinsky. Kermi plush is the word in cloth material and so rich in texture is this new fabric that it is almost impossible to determine it from fur. J. C. Penney's have a brown kermi plush trimmed with mink collar and cuffs and loads of little tails that give a dash of desired splendor to the garment. Klassen's show a kermi plush with a collar of lovely soft fur.

**Little Things Count.**  
As with everything else in life the little things that count in the correct attire. Relying on details in the production of the correct effect, merchants are showing a complete line of accessories such as gloves, handkerchiefs, shoes, hats, etc. While a hat is really an accessory, it is more vital to a woman than the suit, gown, or coat. The trimmings of the hat which millinery designers said would live as long as time, is being replaced and modified by hats of straighter and

more severe lines. So much has been said about the director's influence in the fashion world that the styles in chapeau this season it cannot be forgotten for one minute. High hats, the telescope crowns have had their inception from that talented period in French history known as the "Directoire." The Harris shop has one entire window devoted to tall, tapered hats of black and tan, the plush in the new model of high crowns and severely straight brims. One attractive model was a Valenciennes model of hat's plush with a red velvet facing and Spanish bandeau raising the hat on one side.

**Where Men Buy.**  
The blue and the gray are side by side again this season in men's furnishings. Soft shades of these two most popular tones in beautiful textures made attractive showing at the Varsity, Ziegler's, R. M. Dostwick's, Rohrbach, Ford's and the Golden Eagle. Men's hats of velvet and overcoats of plaids vie with women's apparel for attractiveness. A. J. Huebel, Saturday's and the Model Tailors displayed accessories for men's wear and the former had an alluring showing of the hummingbird bird house in all colors.

**Ornamentation in shoes** is being stressed more than ever. A modification of the cut work in shoes this year is shown in the tiny tassels displayed and topped with a buckle or the as the brown walking shoe presented in Rohrbach's window. Intricate strap work embellished with silver and ribbon buckles are being offered at the Varsity. In addition to the many striking models seen at the Golden Eagle was a husky display with suggestions on how to wear various styles shoes. Wilson's presented a varied line for young and old with emphasis on styles for young men and women.

Kuhlow's, J. J. Smith, Conrad's, Heger Gift shop, Farnum, and A. Leath and company joined in the window display and presented the best of their merchandise for approval. Leath's and Farnum's dining room sets, with tables laid to the king's taste, made elaborate furnishings for their windows.

**Band Plays.**  
The Lower City and High School bands played in front of each store and led the crowds from window to window. All stores have added stock for the opening Friday and Saturday and will display their newest merchandise to advantage within the stores during the week-end.

**AMMSTER HUGS**

## \$1,500,000 TAX REMISSION IN STATE ORDERED

(BY ASSOCIATED PRESS)  
Madison—A remission of \$1,500,000 in state taxes will be made by the state emergency board within a week, it was learned today.

The remission will be made as a result of a balance of more than \$10,000,000 in the general revenue fund, it is said. A similar remission of \$1,115,000 in taxes was made at this time last year.

Whether or not Secretary of State Fred R. Zimmerman will approve the remission is not known. Last year he voted against it.

## CANNING PEARS AT HEIGHT OF SEASON

Quality Excellent; Table Fruits  
Abundant in City  
Stores.

Canning pears are at the height of their season this week-end, according to the statements of dealers Friday, and are being especially recommended for their quality. The pears will practically close this year's canning period. Prices are as low as any time in several seasons, with Kellers at \$1.55 to \$1.75 per bushel and Bartlett some higher. Michigan pears, probably the best lot, are selling for \$3.45 to \$3.60 per bushel; and a few Colorado Elbertas, in boxes, were going at \$1.95. A cut of New York fruit was also received and will be placed on sale Saturday.

A large variety of table fruit make attractive displays this week and includes Idaho eating pears, a 25 cent small basket; excellent quality eating pears at 20 to 25 cents; large ripe peaches at 20 to 25 cents; small seedless grapes at 10 to 15 cents; and blue grapes at 10 to 15 cents per pound.

Tomatoes. Source. The usual all-year-round fruit are also evident in the large supplies, with lemons at 85 to 40 cents; grapes, largely 10 cents; each, oranges at 45 to 60 cents; and apples, 5 cents per pound, except on choice varieties, which are 10 cents.

Especially noticeable this year is the lack of ripe tomatoes in any quantities. When stores usually have bushel baskets of them piled in front of the store, this year they are in small baskets, or by the pound, when they sell for 7 1/2 to 10 cents. Green tomatoes are quite abundant at \$1.00 per bushel.

Stones still claim their share of the fresh fruit trade, watermelon being particularly good, and as cheap as any time so far this year. Watermelon is sold at 10 to 15 cents per pound, and as low as 3 cents each. Watermelon is claimed to be the last car-load for this city arrived Friday.

On account of the high supplies this year, the potato market is very quiet, but has so far held steady. Sweet potatoes are being received in larger quantities and many dealers are offering them in four pound lots for 25 cents.

## IOWA MAN WOULD REVAMP PARTY TO SUIT OWN IDEAS

(Continued from Page 1.)

prefaced with the statement that the senator had promised to "do as much for Coolidge as he would do for me" and that he wished the voters to know what each had done for and to the other.

"I have never had a thought of leaving the republican party," the senator said, by way of reply to reports that he would leave the party to support the presidential candidacy of Robert M. La Follette.

"My whole soul is wrapped up in the principles of Lincoln, Roosevelt and Kenyon," he said, "and I will fight any leaders who seek to divert the party from these great purposes."

"Issue has now arisen in Iowa as to whether the principle of the republican party shall be determined by the voters themselves or by a small group of crooked and irresponsible dictators set up by the non-republican league of Wall Street. This group has ensnared me with renewed and virulent venom, and I therefore, wish to re-state my position and to reform the lines for a final fight to oust this gang from the control of the republican party."

Senator Brockhart said Lincoln as a "theocratic power" of the supreme court" in the case of the Dred Scott decision; that Roosevelt assailed the "malefactors of great wealth," and that Kenyon organized the farm bloc for "economic freedom and equality of the farmers and common people."

"These ideas," he said, "have brought me in sharp disagreement with many different elements which style themselves republican and by their financial power control the policies of the national administration."

"I have said that I would do as much for Coolidge as he would do for me and the voters are entitled to know what we have done for each other and also to each other. I shall give you facts from the inside and shall rest content with your judgment."

Reviewing his nomination the senator said his principal supporters were the farmers and laboring people, "denounced as radicals by the president and his supporters."

## DAIRY SHOW GATE SHOWS BAD SLUMP

Attendance Fails to Come Up to Expectations—Milwaukee Falls Down.

"If every county had come through as did Rock county—there would be a different story in the National Dairy show attendance," declared W. E. Skinner, manager of the exposition after Thursday when the Rock county delegation staged a booster demonstration at both the state fair grounds and in the Milwaukee auditorium.

Attendance at the National has fallen up to expectations, for on the sixth day the gate showed less than 22,000. With but Friday and Saturday left, officials expressed doubt if attendance would reach the 20,000 mark.

PLAN CONFERENCE ON BIG WATERWAY. Madison—Future progress and support of the Great Lakes-St. Lawrence waterway project will be vitally affected by the results of a conference to be held at St. Louis, between Attorney General Jesse W. Barrett of Missouri and Attorney General Herman L. Ekmann of Wisconsin, according to announcement. The conference is to determine what position the Missouri attorney general will take on the waterway project. It is said, ultimately, the outcome will have a direct bearing on the attitude of not only Missouri but of a number of southwest states included in the Mississippi Valley association.

## MOTHER AND BABY ESCAPE UNHURT IN SUCCESSIVE UPSETS

[SPECIAL TO THE GAZETTE] Superior — To plunge down an embankment and lie for a half hour imprisoned beneath their overturned car, to be released by a passing motorist and taken in his car, only to have that overturn a mile away, and to escape from both accidents without a scratch, was the experience of Mrs. Grayson Sipes and her year-old baby of Cleveland.

A locked steering wheel caused the car driven by Mr. Sipes to go over a 10-foot embankment on highway 37 near here Wednesday night, pinning the occupants beneath the overturned machine. Half an hour later a Superior motorist, returning home, noticed the car and released the occupants. He took Mrs. Sipes and the child in his car. Sipes remaining with his machine, a mile down the road the Superior motorist, turning out for another car, drove his machine into the ditch, upsetting it. No one was injured in either accident.

I want to try your Youth Cream Powder  
White Face Powder

### Movie Stars

Are using these rare powders by EDNA WALLACE HOPPER. I did not intend to supply powders to women. My only aim was to furnish them my greatest beauty helps. But thousands of women have urged me, by letter and in person, to tell them the powders I use.

Like all my friends on the stage and in the movies, I use very costly powders. I have them made to my order, and they cost me \$5. per box. Our customers depend on our products, and nothing is too costly.

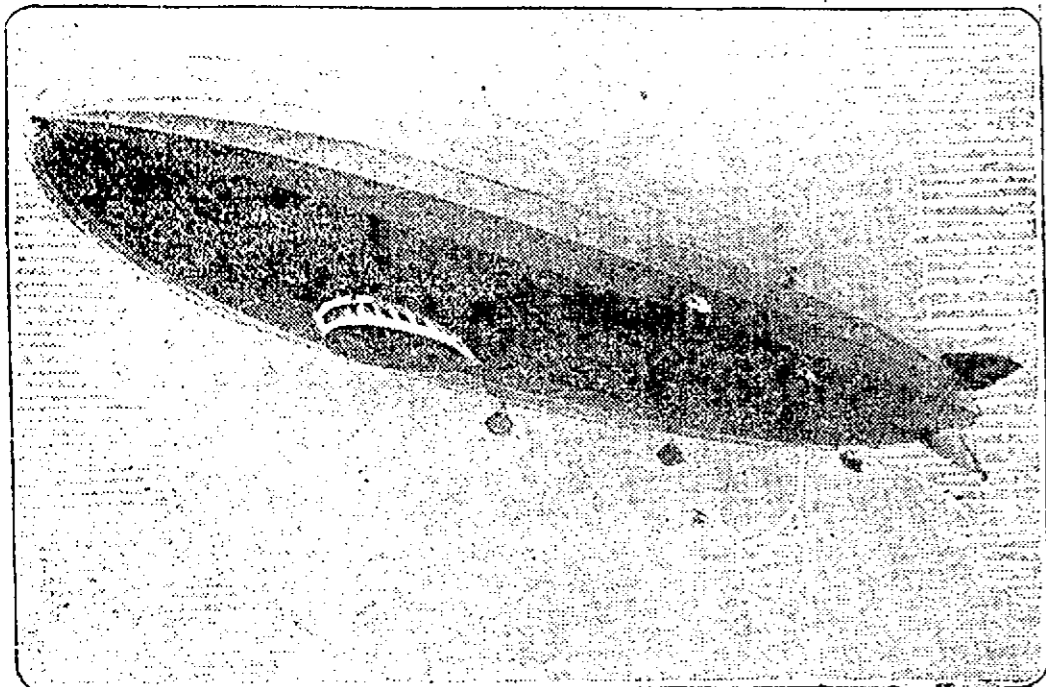

But I have rewarded my customers by giving these powders to my friends at a low price. I order them in quantities, under my name, and give them at my expense to girls and women who desire the best.

New all druggists and toilet counters supply Edna Wallace Hopper's Powders. There are two kinds. For myself, I prefer a clinging powder—a cold cream powder, based on my Youth Cream. It is enduring. That Youth Cream powder costs \$2. But many women prefer a light and fluffy powder. If you want that kind, it costs \$1.50. Each kind comes in three shades—white, flesh and brunette.

So far as I know, these powders are the finest in existence. You may be sure that if anyone produced a better powder I would not let it go. Any woman who uses common powders will gain a new conception of what powders should be.

Let me send you a sample. Just mail this coupon and tell me the kind you want.

—still the demand from every section of the country for these new Advanced Six and Special Six models has swept sales to a point so far beyond the best previous mark that unfilled orders total 7,800 cars.

Nothing that we might say could add the weight of a straw to this irrefutable evidence that men and women everywhere do see clearly in these new cars unparalleled excellence and value.

Happily, with increased output unreasonable delay is eliminated for those who act with promptitude in placing orders.

And deliveries will be made on the rotation basis which is fair to all.

In the meantime—October 5th to 12th is national Nash Oversold Week in honor of the extraordinary success of these new models and we are staging a special exhibition.

## LESSON NO. 2 THE PROPER USE OF LIGHT HOW WE SEE

Objects are seen by the light that falls upon them and is reflected to our eyes. A dark object reflects but little of the light that falls upon it—perhaps less than one-fourth; a light colored object reflects a large part of the light—perhaps three-fourths.

If we are to see objects, the light must fall upon them and be reflected from them. The more darkly they are colored, the more light is needed to enable us to see them. The light that falls on objects which we wish to see may be termed useful light. Most electric lamp bulbs when used without shades or reflectors throw out light in all directions—just as much to the ceiling and walls of a room as down to the table top. Well designed shades are made so that they not only soften the light, but also reflect some light that would otherwise be wasted and direct it downward and outward to the objects that we wish to see.

GLASS Proper lighting requires two things: First, that the eye can see quickly and easily; and second, that this light be shaded and so placed in the room that the eye is not strained by glare. Many homes have soft shaded light that is too dim for good vision; others have enough light but harmful glare is cast on the eyes. Too few homes have plenty of light without glare, which is necessary for proper lighting and the protection of eyesight.

The eye is truly a wonderful organ. Because it does not always immediately complain, we often make it work under great difficulty, and strain it.

Have you ever stopped reading because of a feeling of discomfort? You have a headache without any reason for it that you can think of, or your eyes feel tired, or you find that you cannot fix your attention on your book or paper. You may find later that these are signs you were neglecting your eyes.

We can see under a dim light, but we can see more easily and more quickly if we have good light. When we live day after day with too little light, we are likely to find that our vision of our eyesight.

## Sunken German Fleet Coming Up From Sea's Depths

Remarkable progress is being made in bringing up from the depths of the sea at Scapa Flow the German battle fleet sunk in 1919. The work is being done by private salvage concerns. Above is seen the special "balloons" used in the work bringing a destroyer to the surface. Below is a view of the fore-deck of the destroyer S-131 as it appears after five years of immersion.

## Izaak Walton Is Backed by C. C. in Convention Plans

A donation of \$50 to assist the Janesville chapter in meeting the expenses of the second annual state convention of the Wisconsin division of the Izaak Walton League of America has been given by the local Chamber of Commerce. It is announced by W. E. Hyzer, secretary of the league. The convention comes here on Oct. 15 and 16. "We are going to make this convention one that will make an impression on the state," stated Mr. Hyzer.

The Chamber, in conjunction with the city, will see that the downtown streets are decorated for the occasion. P. O. Holt, superintendent of schools, is co-operating in arranging for a banquet in the high school cafeteria and a public meeting in the auditorium.

## SAXE BROTHERS FIRST IN STATE TO SHOW MOVIES

Wisconsin's pioneer movie managers, John and Thomas Saxe, who are responsible for the beautiful new Jeffries theater here, claimed the first in southern Wisconsin, started in the amusement business with a combined purse of less than \$100 in a small amusement parlor on Grand avenue, Milwaukee, some 20 years ago. This was later turned into a 2 cent moving picture theater, which became the first movie show in the state.

From this small beginning the Saxe brothers have built up a great circuit of 22 leading theaters in Wisconsin, of which the Jeffries is the latest. Eight of these theaters are located in Milwaukee. While the first theater they opened was what later became known as the store show, the Saxes have finally won the reputation of being the most elaborate motion picture palaces in the middle west and of being the purveyors of the best in the motion picture industry. They were the first in the state to grasp the wonderful possibilities of the motion picture business and have built up a recognized institution in this industry by adhering closely to their original policy of furnishing the public with only the best in clean, wholesome entertainment.

Being the largest buyers of motion pictures in the state, the Saxes have an elaborate standard in theatrical entertainment. Thomas Saxe, managing director of the organization, announced that the best pictures of the motion picture market would be presented at the Jeffries theater immediately after their showing at the Wisconsin theater in Milwaukee, thus making it possible for the Janesville public to see the newest pictures immediately after their release. Mr. Saxe is part owner in the First National Pictures and also controls valuable franchises in Wisconsin with Paramount pictures.

John and Thomas Saxe are of Irish parentage. They were born in Fox Lake, Wis., but left home as young boys to learn a trade in Milwaukee. At the time he entered the amusement field John Saxe was head of the J. K. & S. Saxe company, which was later sold out to the Thomas Saxe company. Thomas Saxe was head of the Wisconsin Palace company, which manufactured posters for billboards, wallpaper and trunk factories.

## Practices What She Preaches, Quits Society to Learn Work

"Every woman in society should have something to do in the way of occupation," says Mrs. Vinton Dahlgren Pierce beautiful and prominent young matron, and cousin of Mrs. Vincent Aston. She has given up eastern society to study professional dancing.

## FOUR WOMEN WIN IN SUITS FOR DIVORCE

Three women, bearing tales of domestic infidelity, found comfort in decrees of divorce granted them Thursday afternoon by Judge George Grimm in the Rock county circuit court, after hearing about their marital troubles.

Jessie L. Wells, 23, Evansville, obtained a divorce from Lyle E. Wells, 36, that city, on grounds of cruelty. They were married at Rockford, Nov. 22, 1911, and separated last July.

Deserted 15 months ago, Ardis Marston, Deloit, was granted a decree from Veleom Marston, whom she married at Clinton, she obtained possession of the one child.

Another marriage of those that had their inception at Rockford, Ill., went on the rocks when Minnie Garlt, 29, Deloit, divorced Frank Garlt, 20. The

plaintiff charged non-support and was given the custody of one child. Testimony showed that her husband was living with another woman.

Sitting at a "special term" of the Green county circuit court, Judge Grimm granted Mary Steinhilber, Brookland, a divorce from Harry Steinhilber, Monroe, on non-support grounds.
